The Advantages of Contract Advertising.

The advantages of contract advertising are many and varied. The merchant gets better results and so does the printer. This week, Mr. Freeman of Chanute, begins his second year with us, and during the year he never failed to deliver his copy but once, but very few times did it come later than Tuesday. Mr. Freeman is well pleased with the results, and his business relations has been highly satisfactory. It pays him to do that way and push through, why wouldn't it pay you to do the same way? Mr. Freeman is a man of good business judgement and he is satisfied our circulation is on the paying list—and there are others, the proof of which is their advertisements. Give us more ads and we will prove to you that they are beneficial, besides improving the paper. We have been asked several times about a man whose ad had appeared irregularly, "if he is here." The inquirers stated that they thought the firm had left the place since he didn't advertise. You see this merchant lost money on those parties, the profits on which sales would have paid the printer for the space six months.—Savonburg News. Right you are Brother Jordon, Mr. Freeman is always on hands with his ads, besides he reads them after they are in print, and never fails to show his appreciation of a nicely gotten up ad, but what is still better, when the first of the month rolls round, Mr. Freeman pays his bill as though he thought he had had value received for his money.

Of all the great equestrian performances of the circus world is none more strange or attractive than the perfectly trained equestrian lion to be seen with the Walter L. Main Enormous R. R. Shows, 3-Ring Circus, 5-Continent Menagerie, Roman Hippodrome and trained wild beast shows. This remarkable animal which a few years ago roamed, king of an African forest, is now seen at every performance of the Walter L. Main shows, riding a bare-back horse with all the ease, grace and agility of a champion human equestrian. There is no act or part of any act, performed by our champion bare-back bled artists which this intelligent quadruped does not duplicate, and many things in which he excels the gentlemanly artists of the big show. The big show exhibits here on May 12th, and everyone should see the only horse riding lion performer.

W. B. Whitaker of Buffalo, has put up a creamery on his own "hook" and is running it himself, using the milk of his own cows (18 in number) and making money. The average creamery with \$10,000 capital, paying a superintendent \$100 per month and two or three other useless officers almost as much, has long since had its day in many Kansas towns, including Fredonia, Buffalo, Erie and many others within our knowledge. These are now being replaced by creameries on a smaller scale; the owner is superintendent, secretary, and butter-maker, while his boys milk the cows, slop the hogs and etc. The latter creameries are always successful.

The commissioners of both Neosho and Wilson counties have given the Forest Oil Co. the right to lay pipes along the highways and across the same and across the edges of farms; we may expect to see work begin on the pipe line from the Canby well one mile east of Benedict to this city in a very short time. Chanute people are counting on using gas for lighting and heating purposes this winter.

The following resolution was adopted by the Ladies of the G. A. R. at their department meeting last week: Moved by Elma B. Dalton, that a vote of thanks be extended to Comrade J. E. Plummer for his "patient endurance of life's roughest lot" in going without his supper while his wife was serving on the Council of Administration.—Sue A. Rench, Secretary.

Fredonia organized a commercial club last week, with John C. Hubbell as president; C. H. Pierce, vice president; A. D. Crooks, Secretary, and J. D. Allen, Treasurer. Their object is to look out for the interests of Fredonia, and encourage capital to locate in that town. "Smatter with Chanute organizing a commercial club?"

A fake "lightning rod dispenser" dropped down on one Hottenstein near Humboldt a couple of weeks ago, and sold Mr. H. ten dollars' worth of rods for \$160. Well, after all, there is some excuse for a fellow buying lightning rods from agents, as no hardware merchant in Humboldt carries such goods.

They are so small that the most sensitive persons take them, they are so effective that the most obstinate cases of constipation, headache and torpid liver yield to them. That is the way De Witt's Little Early Risers are known as the famous little pills.—Boschert & Williams.

The long talked-of monument to General U. Grant, was dedicated at New York Tuesday. It is said to be second only to the Washington monument.

With Walter L. Main's Mammoth show will be found the smallest pony in the world, May 12.

The I. O. O. F.'s this district, will celebrate at Neodesha next April.

All dried and canned fruit go at cost at Farringtons, in Jones block.

The Encampment.

The Encampment is over and Chanute is settling down to business as usual. One of the things demonstrated is that Chanute is strictly in it when it comes to entertaining crowds; Chanute entertained the G. A. R. and its kindred organizations in a manner satisfactory in the highest degree of those present; these organizations make up the largest gathering that meets in delegate convention in Kansas, consequently there is no order, or convention that we cannot accommodate and as our railroad facilities are unexcelled, we may feel safe in undertaking to entertain any organization that can be induced to come. No town of our size can any where near compete with us in hotel accommodations and our private dwellings can always be brought in to take care of the overflow. Last week we housed and fed 2,000 people and could easily have taken care of another thousand. Chanute is ALL right.

For seed sweet potatoes go to K. C. Cash Store.

Contractors Martin and Dobbins have secured the contract for the large new building to be erected at Altoona immediately by the M. W. A. local lodge, and a party by the name of Knott. Mr. Dobbins went up this morning to lay off the plans and start the work.—Derrick.

For the Gymnastic Union at St. Louis, Mo., May 6th to the 11th, lowest first class fare for the round trip. Tickets on sale May 4th and 5th. Good to return May 12th. 5-7.

By a vote of 400 to 301 the citizens of Chanute have said that the Second ward should not have a new school house. It is unfortunate indeed that this is thus. The old building now being used for a school house, needs a new roof and new floor; it would not be good business sense to try and patch it up by building to it. Second ward during the past winter sent pupils to the Fourth and Third ward schools, besides furnishing a large share of those who went to the basement of the Presbyterian church. It is not fair and equitable that each of the other three wards should have a brick school house, while Second ward, standing second in population, should have a little old frame building, and but two teachers for 300 pupils of school age. There should be a respectable school building in each of the wards in the city of Chanute.

For fresh bulk garden seeds go to K. C. Cash Store. 3-5 tf.

Card of Thanks.

The Executive Committee wishes to publicly return a card of thanks to the citizens who so patriotically opened their homes for the entertainment of the delegates and visitors to the G. A. R. Encampment, and at the same time express our regret that there were some who made arrangements to entertain, that were disappointed on account of the small attendance.

No cots were furnished by the committee for any person, nor in any way did the committee furnish free lodging for any one. Signed,

L. B. KEIFER,
R. N. ALLEN,
D. E. MCCLELLAND,
G. M. DEWEY,

The Committee have instructed me to refund 40 per cent. to the respective contributors pro rata out of the funds now in my hands, and to retain a small balance thereafter remaining for the purpose of meeting any other bills not already paid.

The Committee, and the public generally, expected me also to report the names of all unpaid subscriptions in order that it might be known how much more might be realized thereon, but as we had such unusual good success in the collections—all our subscriptions having been paid except one of \$10—I have concluded not to publish the name of the delinquent. All persons having contributed, can get their dividend ordered by the Committee, by calling on me at the First National Bank.

I desire to especially thank all contributors for their prompt payment of their several amounts, and especially to the members of the Finance Committee for their assistance in raising the subscription. All of which is Respectfully Submitted,

R. N. ALLEN.
Treasurer G. A. R. Executive Com.

A Sure Thing

In spite of the "direful forebodings" and predictions of "failure" by the "people who know," The Racket's Grocery Department has the high honor of being the only grocery of all that were in existence two years ago, when our Grocery Department was first opened, that has not changed owners during that time. The reason for this is so plain that a child even can understand it, viz: That Spot Cash Selling knocks out long-winded credit in every encounter. The store that Underbuys for cash can surely Undersell for the same kind of pay. If any person will try the cash buying plan for one month and will give it an absolutely fair trial, we will guarantee that if they love freedom and independence, they will never buy on credit again. "It is better to wear old clothes and be FREE than to be clothed in fine linen and owe for it and be some dealer's slave."

The Mammoth Racket,
The Underbuyers and Undersellers for Spot Cash.
